

**From July 2021**

**Please use the garbage bag designated by Maizuru City for Plastic bottles, plastic packagings, and landfill garbage.**

Please buy the designated garbage bag at a supermarket etc.

## Plastic bottles・Plastic packagings

Use the same bag for plastic bottles and plastic packagings, but please separate the two types of garbage.

### Plastic bottles

Take a cap and remove labels.  
Separate the removed cap and label into plastic packagings.  
Please do not crush the PET bottle as much as possible.

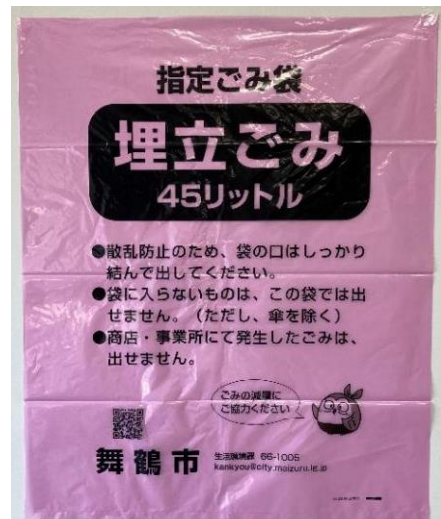

### Plastic packagings

Put the ones with the plastic mark.  
Wash dirty things.  
Please wash and put in dirty items.

## Landfill garbage

Put Plastic products, Home appliances, etc.  
Items that do not fit in the garbage bag cannot be disposed of at the garbage collection point.  
In that case, please bring them to the Recycle Plaza.

# Waste Separation Rule of Maizuru City

## Burnable waste Collected twice a week

Please use a garbage bag designated by the municipality for "domestic Burnable Waste".  
Put kitchen waste, goodie bags, non-recyclable paper etc. into this bag and tie the bag closed for a collection.

Garbage bag designated by the municipality

10liters/10yen	20liters/20yen
30liters/30yen	45liters/45yen

Garbage bags designated by the municipality is used for collection.  
Bags are sold at supermarkets or convenience stores.

## Non-burnable waste (sorted into 7 types 9 sorts)

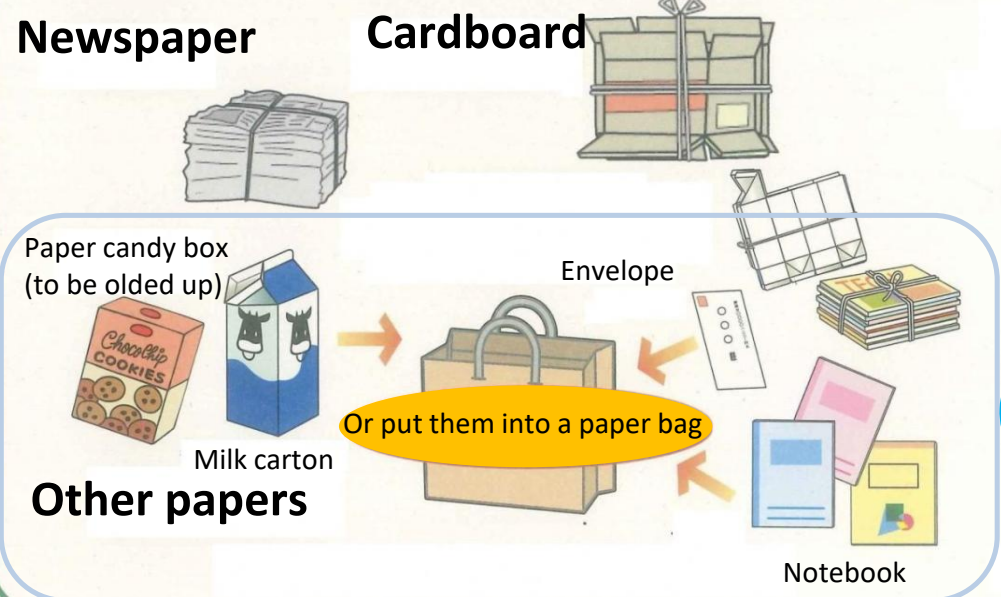

Collected once a month

Household waste is collected in 9 types. When disposing of PET bottles, plastic containers, and landfill waste, it is necessary to use a garbage bag designated by Maizuru City.  
The other non-burnable waste can be put directly to the rubbish bin prepared at Rubbish Collection Point.

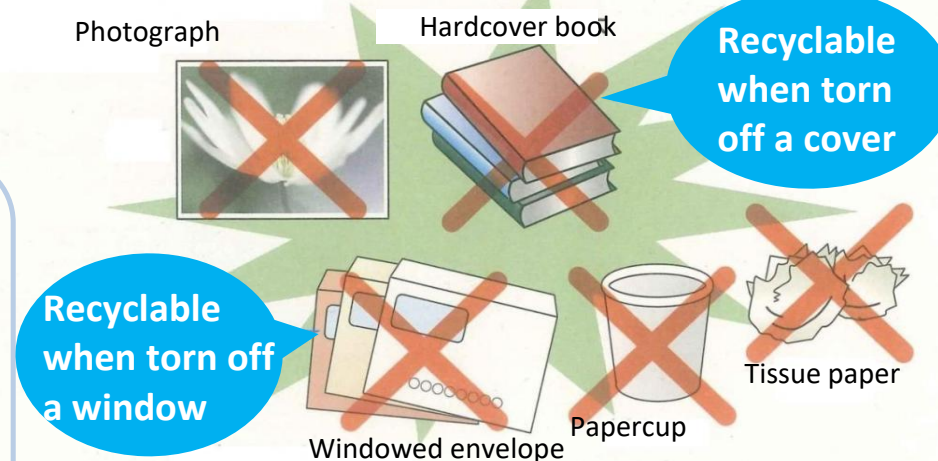

## Paper waste (sorted into 3 sorts)

Collected once a month

## What kind of paper is non-recyclable?

Waterproofed paper or paper products made with a material other than paper are non-recyclable.

Non-recyclable paper should be collected together with burnable wastes.

When a waste are sorted collectly, they become the resources and could take new tasks.
